

Capital Recovery & Reinvestment Program

Life Is On

An innovative way to reach your biggest ambitions

- **Upgrade** aging facilities, equipment and security systems with new technologies to transform and modernize your facilities
- **Comprehensive program** includes design, construction, performance guarantee
- **Single point of contact** manages every detail of your project to mitigate risk
- **Collaborative approach** to project development helps achieve your vision
- **Free up operational dollars** for other priorities and unlock additional funding
- **Create a positive story** for your community through sustainability branding and public relations campaigns

An alternative pathway to long-term success

Build a business case

Identify needs and solutions that fit the long and short term goals of your organization

Select a partner

Leverage a qualifications based selection rather than the lowest bid to choose the best partner for your organization

Design & collaborate

Work jointly with to finalize scope, savings, cost and funding opportunities while considering the entire lifecycle of the project

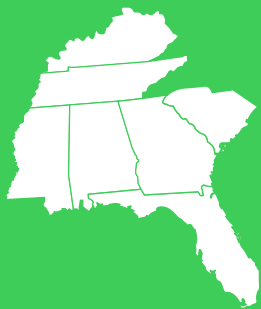

Implement to transform

Schneider Electric will manage all aspects of construction to transform your facilities

Partner & perform

Ensure long-term building performance, and sustainable savings
